

Appl. No. : 10/773,556  
Filed : February 5, 2004

### REMARKS

In the Office Communication mailed December 2, 2004, the Examiner identified eight species (A to H) of the claimed invention, and issued a requirement that Applicant elect a single species under 35 U.S.C. 121. Of the eight species, the Examiner identified species "H" as being directed to Figures 9A-E and claims 1-31 and 37-40. The Examiner also stated that claims 32-36 appear to be generic.

By this paper, Applicant elects species "H," with claims 1-40 readable thereon. Consequently, no claims are being canceled.

For the foregoing reasons, Applicant believes that this Application is now in a condition ready for examination on the merits. Should there be any impediment to the allowance of this application that could be resolved by a telephone call, the Examiner is respectfully requested to call the undersigned at the telephone number shown below.

Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
